Bureau of Water Quality Management

To: Certified Sewage Enforcement Officers

Attached are indexes of guidance related to the administration of the provisions of Chapters 71 and 72 of the Department's regulations. These are being distributed to you in an effort to bring you up-to-date on policies, guidance and case law decisions which relate to the administration of the sewage facilities program. A similar index is under development for Chapter 73. We will update the indexes periodically by sending you any newly developed policies or guidance documents for inclusion.

If you have questions about any of the material contained in the indexes, contact the appropriate DER regional office. If the regional office is not immediately able to answer your question, that office will make the appropriate contacts and get back to you.

Due to staffing limitations, we are requesting that you assemble your own indexes. The pages have been prepunched to fit in any standard 3-ring binder. To organize the binder, we have included sufficient index dividers and labels to divide the index into "Tabs" corresponding to the table of contents page of each index. These numbers correspond to the regulatory section referenced by the documents in that Tab. For example, Tab 21 in the Chapter 71 index contains documents referencing Chapter 71, Section 71.21 of the regulations. For the Chapter 71 index, the tab numbers you should write on the labels are 1, 21, 51, 52, 53, 55, 62 and 63. For the Chapter 72 index, the labels are 2, 22, 25, 27, 28, 41, 42, 43, 44 and 55. Behind each tab divider, insert the documents that are labeled with that number. The table of contents page should be placed at the front of the binder before the first tab divider.

Thank you for assisting us by assembling your own indexes. We hope they will be helpful to you.

Sincerely,

Milton K. Lauch
