Bureau of Water Quality Protection

717-787-8184

To All Sewage Enforcement Officers:

This letter is to request the assistance of all SEOs in ensuring that their municipalities are using the most current version of Sewage Facilities Planning Module Component 1 (PMC1). The revision date appears in the upper left corner of the form. The revision date of the current PMC1 is 9/98. A copy of the correct version is enclosed.

Municipalities can request supplies of PMC1 forms from their regional office. Forms with revision dates earlier than 9/98 should be discarded or recycled.

If you need additional information, please feel free to contact your regional office or me at the above number or address.

Sincerely,

Milton K. Lauch  
Chief  
Division of Wastewater Management
